

# WG-338 Thermo Plus

PRODUCT TECHNICAL SHEET

WG-338 Thermo Plus is a fully double latex coated glove. Water-repellent and insulated for cold resistance, WG-338 Thermo Plus is designed to be used specifically in cold and wet conditions.

Constructed using a 13-gauge brushed pile acrylic liner, WG-338 Thermo Plus maintains dexterity and unparalleled comfort and warmth, even in extreme working conditions.

## APPLICATIONS

- Construction
- Industry
- Refrigerated transport and storage
- Aquatic resource management
- Waste treatment
- Agricultural work
- Agrifood
- Public authorities
- Logistics

## INFORMATION

### Coating

Latex double dip, Fully dipped knitwrist

### Liner

Acrylic, Orange

### Gauge

13

### Packaging

12 paires / polybag

144 paires / box

## PROTECTION

- Liquids
- Cold

## NORMS

EN388:  
2016

2231X

EN511:  
2006

X2X

## DOCUMENTS
